

The Organized Homeschooler *Planning Bundle*

How to Use This Planner

You are free to print out as many of the pages as you need for your family. This planner is intentionally designed so that you can reuse it year after year with multiple children. If a friend would like a copy, please ask them to sign up for their own copy at OrganizedHomeschooler.com.

Planner Covers: You have 10 different options. Print the one that most resonates with you and use it to decorate your homeschool planning binder.

Fun 'Holidays': These fun nontraditional 'holidays' are a great way to get kids excited about the world around us. Sometimes we all need a reason to celebrate! Use them to plan a unit study or activity. Celebrate as many or as few of the days as fits your family.

Monthly Calendars: Use these blank calendars to write down appointments, field trips, or plan ahead with topics you want to teach. They are intentionally blank so you can print out a new copy each year.

Yearly Overview: Keep a short record of the curriculum or topics you plan to teach each year. There is also space to note any field trips you would like to take.

Attendance Record: Some states require you to keep track of the days/hours you homeschool. Use this sheet to keep it all in one place. Just check off each day that you do school work (this can be very flexible depending on your state laws).

Lesson Planner, option 1: Write the subjects in the boxes along the top of the pages. Write down your plans for each day in the appropriate row and column.

Lesson Planner, option 2: Write each subject on the lines and list the assignments under the corresponding subject.

How to Use This Planner

Unit Study Planner: This planner can be used for unit studies or planning activities around your child's interests. Write down the books, activities, videos, and field trips you plan on doing with your child.

Book List: You can use this tracker in two ways. The first is by planning the books you want to read each month and/or year. The second is by keeping a record of each book read.

Field Trip Planner: Fill out this field trip planner as you research potential field trips.

Weekly Planner: This planner can be used to notate lessons, errands, appointments, or tasks. It lets you see everything you need to do during the week in one glance.

Daily To-Do List: The daily to-do list helps you break your weekly plan into smaller pieces.

Meal Planner: Use this to plan out your meals for the week. At the bottom, write the groceries you will need to purchase. Remember to include any special supplies for lessons.

1000 Hours Outside: The 1000 Hours Outside tracker can help you be intentional about spending time outside with your children. Many people list a goal of 1000 hours annually, but you get to set your own goal.

1000 and 100 Tracker: I included a blank 1000 tracker and 100 so you can set your own goals. Ideas include books and games.

The background is a soft watercolor wash in shades of yellow, pink, and purple. A large, solid white circle is centered on the page, serving as a backdrop for the title text.

Homeschool *Planner*

The background is a watercolor wash in shades of teal, blue, and green. A large white circle is centered on the page, containing the title text.

Homeschool *Planner*

The background is a soft pink color. It is decorated with small, white, dried flower-like elements scattered across the surface. There are also several out-of-focus, glowing yellow and white circular lights, creating a bokeh effect. A large, white circle is centered on the page, containing the title text.

Homeschool *Planner*

The background of the image is a light pink color with a vertical wood grain texture. In the center of the image is a large, solid white circle. Inside this circle, the words "Homeschool" and "Planner" are written. "Homeschool" is in a bold, black, sans-serif font, and "Planner" is in a black, cursive script font.

Shopping List

A full-page sheet of white graph paper with a light gray grid. The grid consists of small squares, approximately 10 units wide by 10 units high per section. There are two main sections separated by a horizontal line across the middle of the page. The top section is slightly larger than the bottom section. The grid lines are thin and evenly spaced.
